

CDC Eviction Ban:

What you need to know

You are not protected unless you complete these steps

1.) Ask for help with rent at CAPnh.org and your local welfare office

This is your first step. You must ask for help paying rent to qualify for the eviction ban.

2.) Keep paying as much rent as you can

You have to pay all unpaid rent when the ban ends Dec. 31 - or risk eviction. Paying as much rent as you can now will make that easier.

3.) Complete the required form

To avoid eviction, all adults in your home must complete a declaration form confirming they:

- Cannot pay rent because of lost income or medical bills
- Have applied for rent assistance
- Are paying as much rent as they can

4.) Give your landlord the form

This is required. Keep a copy of the form(s) you give to the landlord.

5.) Contact us if you get an eviction notice

You may qualify for free legal help. Apply at nhlegalaid.org or 1-800-639-5290.

Complete declaration form in English or Spanish here:
